

Safe, Pure and Reliable Transport

Global food-grade
tank container solutions

Transporting your liquid food products with
uncompromising quality and care

Introduction

Moving food products with confidence

At Stolt Tank Containers, we understand that transporting food-grade liquids is about more than logistics, it's about preserving quality, safety, and brand integrity.

The smart choice for liquid food logistics

Maximum product integrity
sealed, closed system minimizes contamination risk

Enhanced safety
for both people and product

Consistent quality
protects taste, texture, and composition

Sustainable transport
reduces packaging waste vs. flexibags, drums or IBCs

With the world's largest dedicated fleet of food-grade tank containers and a global network of experts, we ensure your products arrive in the same condition as when they left your facility.

Specialized solutions for every product

We transport a wide range of food-grade liquids, including:

Wines & spirits
Vegetable oils
Fruit juices
Liquid sweeteners
Chocolate and specialty products

Dedicated equipment for complex needs:

Temperature-controlled tanks (heated/refrigerated)
Multi-compartment tanks
Baffled tanks
Beer and swap body tanks
